HALF – DAY Fontaine de Vaucluse

Departure from Marseille at 9.00 am return at 12.00 pm

Fontaine de Vaucluse is truly one of the most visited places in the Vaucluse : In the summer months the streets are literally crowded and the souvenir shops come at you from all angles... If you're looking for calm walks down the charming village streets, try and come in the morning.

The success of the village is essentially due to the impressive spring which flows out of the 230 m high cliff. This gigantic source is the most powerful on France and fifth in the world.

630 million cubic meters of water flow out every year. The emerald green calm summer waters become spectacular in the wet seasons, (autumn and spring).

90 m³ of water per second spill into the bed of the River Sorgue. In all seasons secondary sources flow into the river to create an extremely beautiful shady pool, under the immense plane trees.

Fontaine de Vaucluse gave its name to the département, and inspired the poets Frédéric Mistral, François Pétrarque and René Char.

They were seduced by the beauty of the place and enchanted by walks along the verdant banks of the River Sorgue.
